Furthermore, the Board of Directors refuses a registration if the purchaser, either alone or in conjunction with related persons, already holds 5% or more of the registered share capital (either directly or indirectly) at his/her disposal, or would exceed this threshold with the new acquisition (Art. 9 para. 3 of the Statutes). The Board of Directors may approve exceptions to this rule in special cases. No such exceptions were requested in the period under review.

CORPORATE GOVERNANCE

Insofar as an individual or a legal entity was already entered in the share register before the reporting date of 31 May 1997 with 5% or more of the registered share capital, the Board of Directors must approve the registration even though the percentage threshold has been exceeded. The same exception applies for related persons (spouse, descendant, brother, sister), transfers due to inheritance or matrimonial property rights as well as certain transfers between legal entities or individuals subject to the exception (Art. 9 para. 6 and 7 of the Statutes).

Where a share purchaser presents an application for recognition as a shareholder of the Company, he/she shall be regarded as a shareholder without voting rights until the company has recognized him/her as a shareholder with voting rights. 2022	60 029	191	2023
2022	60 192	191	2024

The Board of Directors does not have a Nomination Committee at its disposal. The tasks of the Nomination Committee (determination of the criteria for the selection of candidates for election as members of the Board of Directors, selection procedure, etc.) are carried out directly by the Board of Directors, in view of the small number of members.

In the year under review, the Board of Directors met six times. The meetings lasted approximately three to four hours. The Compensation Committee met twice and the Audit Committee met four times.

Furthermore, important business issues, new products and the Group’s financial status are reported in detail. Moreover, extraordinary occurrences are immediately brought to the attention of the Board.

Nor does this restriction apply to the exercise of voting rights by the independent voting-rights representative.

Furthermore, pursuant to Art. 16(4) of the Statutes, the Board of Directors is entitled to make exceptions to the limitations in special cases. No exceptions were requested or granted during the business year. A modification of the representation restrictions is only possible through a change of the provisions of the Statutes. Shareholders who cannot attend the General Meeting in person may arrange to be represented by their legal representative, by another shareholder entitled to vote or by the independent voting-rights representative.

8.3 Supervisory and control instruments pertaining to the audit

The supervision and final verification of the external audit is exercised by the Audit Committee, and by the full Board of Directors, respectively (see also the duties and functions as described under 3.5). The Audit Committee evaluates together with the Group Management the performance of the auditors and recommends the independent external auditor to the Board of Directors for election by the General Assembly. As a general rule, the Audit Committee meets twice a year with the auditors. The auditors prepare a report for the Audit Committee regarding the findings of the audit, the financial statement and the internal control. Together with the auditors, the audit focus points for the following review period are determined and the audit related key risks established by the auditors are discussed. In collaboration with Group Management the independence of the auditors is evaluated annually.
